

Eleonora's Erasmus experience, Erasmus student at the Department of Primary Education during the winter semester of the academic year 2014-2015.

I have been in Crete as Erasmus student, from September 2014 to February 2015. It has been one of the best experience in my whole life.

From the organizative point of view, the University of Rethymno has the kindest and most helpful secretariat and teaching staff I've ever meet around Europe. Although the well-known and usual difficulties on accomplishing all the Erasmus documents, I've fixed everything just with their valuable support.

Life in Rethymno is simple for a student: renting a house is cheaper than the rest of Europe. You can afford a good place to stay, food, entertainments and the average monthly outgoings with your Erasmus scholarship.

For what concerns exams, I've done seven exams (for a total of 31 ETCS) and I've learnt, through a free greek course, enough to be able to talk with my friends: I mean that actually Erasmus in Crete is a formative experience.

On the other side, beauty of the landscape, sweet temperatures, the famous cretan hospitality, the everyday party atmosphere and the easyness to struck up friendship make me go back to Crete every holiday!
