

Dear partners:

After the successful Erasmus+ Staff Training Week in November 2016, the Service of International Relations at the Miguel Hernández University of Elche would like to invite you to participate in its third edition, which will take place **May 21-25, 2018**. During this event, we would like to offer you the opportunity to gain an inside perspective of our university and a chance to enhance the quality of our international exchange programs. During this edition, we would like to present our special project, "[Healthy University](#)," with the main objective of sharing and exchanging information about healthy living. Among other things, we would like you to see UMH services firsthand and participate in interesting activities such as The Art of Cooking Spanish Tapas Welcome Dinner and a visit to the picturesque coastal town of Altea.

We are looking forward to welcoming you and offering you the chance to experience life at our university as well as in Elche and its surrounding area. We hope to spend an interesting week with all our partners and have the chance to get to know one another in a relaxed setting. Please look at [our program](#), fill out the [application form](#), and return it to us no later than **March 1**. Places are limited, and selected participants will be notified of their acceptance personally by March 8.

For further information or any queries, please do not hesitate to contact us at the following email: [staffweek@umh.es](mailto:staffweek@umh.es).

Looking forward to meeting you in Elche!

Kind regards,

*Inma BLAYA*

Director

**Service of International Relations, Development**

**Cooperation and Volunteerism**
